Omega Plant Farms

OMEGA,
GEORGIA

To The Trade

In sending you this Vegetable Plant Folder, we wish to assure you that we are now in a better position, than ever before, to supply you all varieties of vegetable plants listed. We wish to thank you very much for your confidence in allowing us to supply your plants for the past season and assure you we will be able to handle your business this year in a satisfactory manner.

You will find there is no increase in our prices, although there has been from ten to twenty percent increase in our operations and we have been confronted with the same labor situation as other types of business.

Assuring you any business given us will have our personal and careful attention, we are,

Yours very truly,

OMEGA PLANT FARMS

How To Order Plants

You will find enclosed an order blank for your convenience.

Make remittance by Post Office or Express Money Order or Check. Make all checks payable to Omega Plant Farms. Write name and address plainly. Always state how you want shipment made; by Parcel Post or Express, as we do not ship vegetable plants by freight.

What To Do When Plants Arrive

Open immediately and take a few bundles from the center of crate. If weather conditions are unfavorable for transplanting to fields, place in cool place, keeping roots moist and tops dry or trench out thinly, keeping plenty of moisture to roots and tops dry.

Omega Plant Farms, Omega, Georgia

FROST PROOF CABBAGE PLANTS

Ready for Shipment September 15th to June 15th

These plants are grown from the highest quality seed in open fields and have been known to stand a temperature of 14 degrees above zero without serious injury.

WE CAN SUPPLY THE FOLLOWING VARIETIES

EARLY JERSEY WAKEFIELD, 63 Days—Best early and extensively used for home and market. Firm pointed heads with few outside leaves.

CHARLESTON WAKEFIELD, 72 Days—Larger and less pointed than Early Jersey, and about ten days later.

GOLDEN ACRE, 63 Days—Earliest round head variety, little smaller than Copenhagen Market and about a week to ten days earlier.

COPENHAGEN MARKET, 72 Days—Early round headed variety, popular in all markets, very firm and of the highest quality.

EARLY ROUND DUTCH, 76 Days—An excellent early cabbage producing firm round heads and much hardier than Copenhagen varieties.

GLORY OF ENKHUIZEN, 80 Days—Attractive medium early, large, round and solid.

EARLY FLAT DUTCH, 83 Days—Sure heading, compact and early. Heads flattened and solid.

MARION MARKET, 73 Days—(Yellow resistant) Copenhagen type—about ten days later than Racine Market.

WISCONSIN ALL SEASON, 84 Days—(Yellow resistant)—One of the hardiest cabbage grown, making large flat heads and is much in demand in making kraut.

BY MAIL—Postpaid		Mail or Express—Not Prepaid	
100 Plants	\$.65		Per 1,000
200 Plants95	1,000 to 4,000 Plants	\$1.75
500 Plants	1.90	5,000 to 9,000 Plants	1.60
1,000 Plants	2.95	10,000 or more	1.50

PEPPER PLANTS

Our Pepper Plants are open field grown but they are not Frost-Proof. We will have these plants ready for shipment during April, May and June.

SWEET VARIETIES

WORLD BEATERS—One of the best of the larger peppers, fruits 5 inches long, 3 inches in diameter. Flesh mild and thick, deep red when ripe. Good shipper and very productive.

RUBY KING—Excellent for home, market garden and shipping. About as large as World Beater, vigorous grower, very profitable. Deep green becoming bright red, mild, sweet thick flesh.

PIMIENTO—A small, mild pepper, glossy green when young, ruby red when ripe, excellent for stuffing and canning.

CALIFORNIA WONDER—This is a large thick meated sweet pepper which we recommend above all others. Vigorous growing plants making heavy yield of large blocky fruit 5 inches long and 4 inches wide.

LONG RED CAYENNE—This medium early pepper is long, slender pointed, deep green when young and bright red when ripe, strong flesh and pungent.

HUNGARIAN YELLOW WAX—This early variety is larger than other hot peppers producing fruit 6 to 7 inches long and 2 inches in diameter. Excellent for canning. The color is waxy light yellow at first, changing to orange and then to bright red.

EGGPLANT PLANTS

BLACK BEAUTY—Plants grow two to three feet high producing six to eight large egg shaped fruits. Smooth, dark, purple and hold well after picking.

FLORIDA HIGH BUSH—Earliest high bush type, very prolific, a fine shipper and stands drought and heat better than other varieties.

NEW YORK PURPLE—This is spineless strain, large, purple fruit. Very productive and a standard brand.

BROCCOLI PLANTS

CALABRESE OR ITALIAN GREEN SPROUTING—The leading variety used by shippers, markets and home gardeners. Produces a blueish green head at center of plants. When this head is cut many smaller heads appear which are as desirable as the first. Continues to bear until frost.

Pepper, Eggplant and Broccoli

Ready for Shipment March 15th to June 15th

BY MAIL—Postpaid		Mail or Express—Not Prepaid

1,000 Plants	5.00	10,000 Plants	3.50

ONION PLANTS

There are two leading varieties of Onion Plants; White Crystal Wax and Yellow Bermuda. These plants come from Tenifree Island Grown Seed and as they are grown in the open fields can stand unusually low temperature. They are pulled and shipped in bunches of 100 plants each.

CRYSTAL WHITE WAX—A very popular variety, an absolutely pure white onion of waxy appearance. The sweetest and mildest of all Bermuda Onions. There is a good demand for this on account of its handsome appearance.

WHITE OR YELLOW—This is a straw colored variety, exceedingly mild in flavor and very early. A profitable variety for market, gardeners and truckers.

RIVERSIDE SWEET SPANISH—Sparkling white flesh. Mild, sweet, good quality and splendid keepers.

Do not order less than 100 plants of any variety. Smaller amounts at the 100 price.

TOMATO PLANTS

Ready for Shipping from March 15th to June 15th

Omega Brand Tomato Plants are grown in the open fields and make strong, stocky plants with well developed root system. They are not Frost-Proof but are much hardier and stronger than plants grown in a Greenhouse or under cover. All our Tomato Plants are grown from certified seed, inspected by the State Department of Entomology and planted on carefully selected land. A large percent planted on New Ground and second Year Fields. These plants are properly irrigated when necessary under supervision of some of the most experienced field men in the plant industry.

EARLIANA, 60 Days—One of the earliest varieties grown, Making large, well rounded fruit of deep scarlet red color.

JOHN BAER, 66 Days—Medium to large, round, scarlet-red fruit, smooth and firm. A good early variety.

BONNY BEST, 66 Days—A very popular early tomato for home and market. Scarlet-red fruit, flattened globe shape, vigorous grower with plenty of foliage.

PRITCHARD (SCARLET TOPPER), 70 Days—An ideal all-purpose tomato, wilt resistant, large producer of bright red globe shape, medium size and excellent quality.

STOKESDALE, 70 Days—A new variety, developed by Francis C. Stokes. Early, heavy yielder, deep, red, globe shape, gaining in popularity with commercial shippers and canners.

RUTGERS, 74 Days—A wilt resistant variety, vigorous grower with plenty of foliage, fruit globular shaped, bright red with heavy walls, small cells, a popular variety all over the United States.

MARGLOBE, 73 Days—This variety is recommended for its resistance to wilt and nail head rust. It is a good second early and continues to bear until frost.

MASTER MARGLOBE, 73 Days—The finest strain of Marglobe bred to produce heavy yields, perfectly shaped fruits.

GREATER INDIANA BALTIMORE, 78 Days—This variety is excellent for canning. Producing a large, solid, smooth fruit of bright red color and excellent quality.
